

Visit our dedicated Display Studio at site EW6

- See our **1967 O-2A Cessna** aircraft with operational Phoenix Pod and other stores attached
- View a live, on-the-ground transmission from the Pod
- Experience the **Helmet-Mounted Display** which demonstrates a training weapon HUD targeting solution for aircraft without a native aiming system via a **Continuously Computed Impact Point** presented to the pilot
- See an animation video developed to showcase the application of the **Phoenix JTAC Training Solution**
- Meet the SiNAB team as well as our partners Hoodtech and L3Harris/ViaSat

See us on the Investment NSW Stand 2M8 in Exhibition Hall 2

- Interact with the **Phoenix Pod** inside SiNAB's "virtual hangar"
- View the pod attached to various aircraft
- Learn more about the **Phoenix Pod's** capabilities and modules

Hear us in action at the Conference Centre
